Skills

Intermediate

HTML, CSS
JavaScript
NodeJS, MongoDB

Basic

Java
SQL

Languages

Spanish
English

Web Developer

I am currently studying software engineering, as part of my career I have worked with front end technologies such as HTML, CSS and JS for web design and animations, I have worked with flexbox, grid and bootstrap taking designs from Photoshop and turning them into code and I have used NodeJS as back end along with MongoDB for database and I have some of my codes storage in github.

Experience

Call Center:

English customer service advocate, floor/chat support, risk specialist. I have used outlook, Microsoft office and developed people skills, time management and multitasking skills.

Education
